THE BRUNSWICK-BALKE-COLLENDER COMPANY

These are the Price Regulators in the United States for Bar Fictures, Caram and Pocket-Billiard Tables, Bowling Alleys and Supplies.

Compare prices in these lines with those of ten years ago when competition was more active and when lumber and other supplies cost one-half less than at present. We then had two factories. We now have eight with twenty times the floor space and we need the business. We could not get it with high prices. We have forced prices down by steadily increasing our immense output. Greater quantities mean cheaper production.

We don't belong to any
Trust or Trade Combination.

No Wires—No Plugs—No Electricity

WEED with all the ease of running an ordinary carpet sweeper, but with the suction lift of electric cleaners.

The Vaculette makes A THOROUGH CLEANING EVERYWHERE. It is so easy to use and so efficient in collecting dust, dirt, thread, hair, lint, etc., that it is the only machine of its kind.

The VACUETTE is built mostly of pure sheet aluminum—highly polished, is fool-proof, and only weighs 6½ pounds. The suction nozzle is STANDARD SIZE. The revolving bristle brush loosens every particle of dust and grit, and the high speed steel fan (3,500 revolutions per minute) creates sufficient vacuum to draw all the sweepings into the bag safely, and is guaranteed not to injure the fabric of the most costly Oriental rugs.

The merits of the VACUETTE can only be appreciated by actually seeing the machine in operation, or by using it, and we believe the best way to advertise the machine is to place a limited number in each locality at a wholesale price, which would be about half the cost of any other vacuum cleaner. The machine is fully GUARANTEED for one year, but will really last a lifetime.

Surely, you can AFFORD this vacuum cleaner now at the WHOLESALE PRICE, when you will eventually pay the retail price. Further details gladly furnished upon request—such as your nearest dealer, descriptive pamphlet or a demonstration without obligation to you.
